QUIZ OF THE MONTH

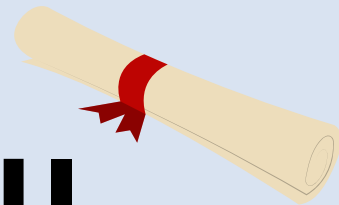

QUESTION:

Can you recognize this place below?

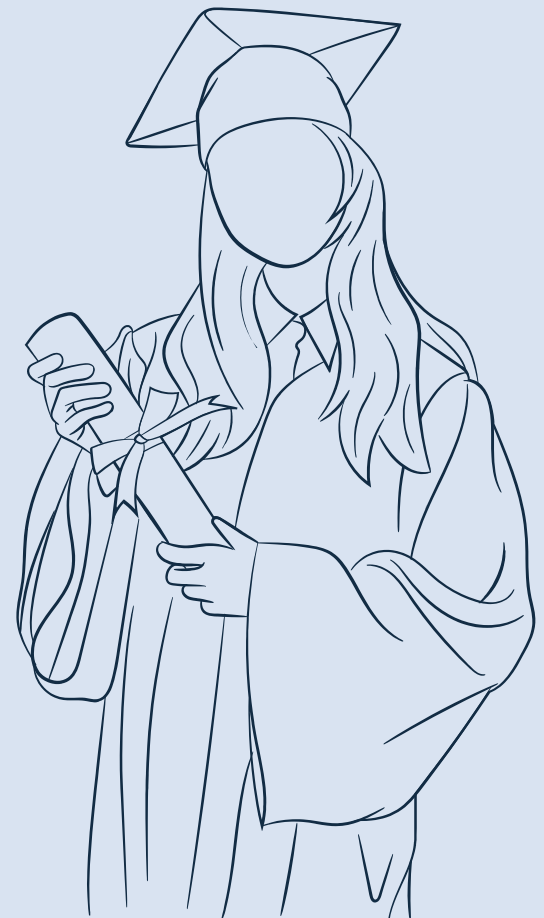

Previous edition question: Which commission recommended the creation of IIFM?

Answer to the Quiz question of May:
National Commission on Agriculture
(NCA)

ALUMNI IN NEWS

CONGRATULATIONS, MAHENDRA SINGH SOIJANYA (BATCH 2015-17)

Heartiest congratulations to our esteemed alumnus, for securing the 16th rank in the State Public Service Commission examination and posted as the Deputy Collector.

Your success brings immense pride to the IIFM community. We celebrate your outstanding achievement and wish you continued success.

Warm regards,
Alumni Network Committee, IIFM

Very happy to share that Anup Singh PFM 06 has joined EY as a Partner focused on Africa. Anup will play a critical role in bringing EY's global expertise to the Africa market and in particular will work closely with the Africa-India-Middle East practices to create seamless offerings to clients in Africa.

Anup was previously at Micro Save and many of us have been familiar with his phenomenal journey.

Please join in congratulating Anup as well as celebrate an EY alumnus breaking the glass ceiling to become a Partner in a Big 4 consulting firm.

Jagjeet Singh Sareen
The writer is a partner at Dalberg Advisors and co-leads the firm's global climate practice

People-First Approach For A Sustainable Era

National and state-level energy plans should collectively bring economic growth, jobs and livelihood opportunities. And financiers have to play a key role in enabling a just transition

The election heat may have subsided in India, but the scorching heat of climate change is just beginning to sear. Extreme weather events—such as droughts, floods and heatwaves—have become more commonplace, adversely impacting people's health, productivity and income. These effects are disproportionately felt by vulnerable segments of the population, such as the urban poor and small-holder farmers. Additionally, as India makes

strides in its decarbonisation efforts by doubling down on renewable energy, there are growing concerns regarding reliable access and affordability of energy, as well as larger questions of equitable access to economic opportunities, equity and justice. As the unequal impact of climate change becomes increasingly evident, it is crucial to reassess how we implement measures to effectively tackle these concerns. We need to recognise

that the vulnerability of individuals and communities to the impacts of climate change is influenced by the interactions of local, state, and national actors and actions. Therefore, it is essential to take a comprehensive and systems approach. We require policies and implementation measures that aim for transformative adaptation, resilience, and mitigation to fundamentally transition all sectors of our economy. These policies and implementation measures must prioritise people's lives and livelihoods as a fundamental principle. It is important to consider how this transition can be centered around improving the lives and livelihoods of people.

Green Transition & Human Cost

India has already committed to ambitious decarbonisation targets: increasing its renewable energy capacity to 500 GW by 2030 and reaching carbon neutrality by 2070. It is now pushing ahead with electrifying all sectors of the economy and greening the electricity, aided by the ramped-up use of green hydrogen

and biomass-based fuels. However, without a people-first approach, decarbonisation and energy transition efforts could negatively impact lives, livelihoods and natural ecosystems. Additionally, fiscal policies (EU's Green Deal, US's Inflation Reduction Act and green industries' subsidies) and trade measures (like the EU's Carbon Border Adjustment Mechanisms) adopted by developed nations could also have disproportionate and negative impacts on economic growth and livelihoods of the people in India.

India requires hundreds of billions of dollars in investments by 2030 and beyond to meet its solar, wind, hydrogen, bioenergy, and green mobility targets. As these sectors expand, tensions over resources will likely amplify, particularly over land and water, affecting millions of farmers. Despite this, many financiers still view renewable energy as fully sustainable, and continued investments may perpetuate existing socioeconomic inequalities.

Acting now could turn the energy transition into an opportunity for broader socioeconomic transformation. Across the value chain, various actors, from policymakers to developers, can come together to drive this green transition towards responsible renewable energy.

National and state-level people-centric energy transition plans should collectively bring economic growth, jobs and livelihood opportunities. For green industrialisation, India needs to go beyond production-linked incentive schemes and push for localising manufacturing for renewable energy and green mobility. This requires building the necessary green industrial, financing and skills ecosystem. The workforce dependent on carbon-intensive sources, like the coal value chain, should be adequately compensated and reskilled to support energy transition and green industrialisation. We must

Financiers still view renewable energy as fully sustainable, and continued investments may perpetuate existing socioeconomic inequalities

also be mindful that increasing the burden of environmental, social, and governance (ESG) reporting and reducing Scope 3 emissions could be a constraint for the growth of MSMEs, which contribute significantly to economic and social development. Hence, it is critical to support green business models and ease access to green credit for MSMEs as key enablers of green industrialisation.

Key Role of Financiers

Given their ability to influence developers and other value chain actors, financiers have a key role to play in enabling a just transition. While they are showing some signs of climate awareness, it is often limited to meeting ESG requirements. Knowledge of financial and technical solutions, and the ability to implement and monitor them remains a challenge.

Fiscal regulators have an important role to play. In the past year, the Reserve Bank of India and the Securities and Exchange Board of India have come forward with climate physical risk and ESG disclosure requirements and nudged financial sector entities to undertake climate stress tests. While these are welcome steps, one needs to be mindful that the risk mitigation efforts undertaken by financial sector players are likely to have a disproportionate impact on incomes and livelihoods of vulnerable segments of the population with potentially higher interest rates.

Increased costs of climate-proofing, and higher insurance premiums.

Urban Poor & Farmers: Worst Affected

The urban poor are among the groups that are particularly at risk from climate change, despite contributing minimally to its causes. It is estimated that climate risks could increase India's national poverty rate by 3.5 percent, leading to an additional 50 million people falling into poverty by 2040. Climate change poses risks to nutrition, health, education, livelihoods, housing, WASH, and financial safety nets. However, existing programmes often fail to fully address the interconnected ways in which climate challenges affect their lives. Adaptation and resilience solutions for the urban poor should span across various sectors and avoid isolated and short-term thinking.

India's farmers too have been severely affected by climate change in recent years, and these effects are expected to worsen. Small-holder farmers, comprising 78 percent, produce 41 percent of the country's food grains. Farmers face challenges such as water scarcity and the threat of unsustainable agricultural practices. The increasing frequency of extreme weather events, such as droughts and floods, also pose significant challenges, potentially causing a 20 to 25 percent decline in medium-term incomes if not addressed promptly. These challenges, if left unaddressed, could further endanger the future of Indian agriculture and lead to increased climate-linked rural-to-urban displacement.

Any climate-smart intervention needs to consider the interests of these two groups front and centre, with affordable and scalable solutions. It is imperative to mitigate their losses if we wish to achieve a people-centred transition to a green era. Ensuring these groups can prosper in a green era should be as much of a priority as tackling climate change.

India's farmers, 78 percent of who have small holdings, face challenges such as water scarcity and the threat of unsustainable agricultural practices

I have joined [Harvard Kennedy School](#) this year to pursue Master in Public Administration as both an Edward Mason Fellow and a John F Kennedy Fellow. My focused academic background from [IIFM Bhopal](#) and almost a decade of work experience with [MicroSave Consulting \(MSC\)](#) have been incredibly rewarding - they provided me the opportunity to address complex challenges to enable social, financial, and economic inclusion for marginalized groups.

I am elated to represent India at Harvard Kennedy School and am looking forward to meeting some inspirational people from around the world at HKS

I am indebted to my parents, family, friends, and mentors for their unwavering support throughout this journey. Thank you for guiding me, listening to me, and believing in me. I am extremely blessed to have each of you in my life and would not have made it this far without you.

Arshi Aadil (PFM 2013-15) has joined Harvard Kennedy School, to pursue Master in Public Administration as both an Edward Mason Fellow and a John F Kennedy Fellow. She worked for almost 10yrs with MicroSaveConsulting (MSC). She will represent India at Harvard Kennedy School(HKS)
Note: Harvard Kennedy School alumni include 21 heads of state or govt from around the world, the most of any graduate institution in the world.

Mini meet at London:

L to R: Dr. Ajith Chandran (PFM 1991-93), Friend of Dr. Ajith, Dipak Jha (PFM 1998-00), Hardik (son of Dipak)

At Bali (Indonesia):

L to R: Ravi Gupta (PFM 1989-91), Manoj Dabas (PFM 1988-90)
Sandeep Chakravorty (PFM 1989-91)

A Mini IIFMights meet in Delhi:

Left to Right- Santosh Kumar Singh (PFM 2004-06), Ravi Gupta (PFM 1989-91), Shivanshu (PFM 2011-13)

At Ranchi:

Left to Right- Archana Sharma (PFM 1994-96), Punit Minz (PFM 2014-16), Avinash Kumar (PFM 1998-00), Dr. H S Gupta (Faculty IIFM & Retd. IFS)

L to R: Radhika (PFM 1998-00), Mugdha (Nikhil and Radhika's daughter), Ashish Tirkey (PFM 2007-09), Nikhil Mathur (PFM 1998-00). Ashish hosted Radhika Mugdha and Nikhil for a fantastic dinner at the beautiful Pugdundee Treehouse property he manages, adjacent to the Bandhavgarh National Park

Mini Meet at London:

L to R: Dr. Ajith Chandran (PFM 1991-93), Bhushan Patil (PFM 2016-18), Prachi Shrivastava (PFM 18) , Vaishnavi Pemmaraju (PFM 20)

The super mini IIFM meet in Washington DC:
L to R: P.K. Pruthi (PFM 1989-91), Chandra Kishor (PFM 1989-91)

Standing L to R:
Vikas Choudhary (PFM 1996-98), Sridhar Reddy Sripathi (PFM 1995-97) and Sandeep Chakravorty (PFM 1989-91)
Sitting from left to right:
Sonia Bakshi Sud (PFM 1998-00), Shruti (PFM 2019-2021) and Swati (PFM 2007-09)

P.K. Pruthi (PFM 1989-91) and his family

Mini meet at Ranchi

L to R: Abhishek Choudhury (PFM 2004-06), Avinash Kumar (PFM 1998-00)

Mini meet at Ranchi

L to R: Abhinav Jha (PFM 2016-18), Abhishek Choudhury (PFM 2004-06), Bishnu Parida (MRM 2004-05)

IIFM IN NEWS

The Indian Institute of Forest Management (IIFM) Bhopal welcomes the new batches of Post Graduate Diploma in Forestry Management (PGDFM) and Post Graduate Diploma in Sustainability Management (PGDSM) for the academic year 2024-26.

वन प्रबंधन के पेशवरों की मांग बढ़ी

200 नवीन छात्रों को
शामिल किया गया

40 प्रतिशत महिला छात्रों के साथ
संतुलित लैंगिक समानता

22 राज्यों और केंद्र शासित
प्रदेशों का करेंगे प्रतिनिधित्व

भोपाल, 18 जून. राजधानी स्थित प्रमुख केंद्रीय संस्थान भारतीय वन प्रबंध संस्थान ने नए शैक्षणिक सत्र 2024-26 के लिए अपने प्रमुख एम.बी.ए कार्यक्रम-वाणिकी प्रबंधन एवं सततपोषणीयता प्रबंधन में 200 नवीन छात्रों को शामिल किया. उभरते हरित प्रबंधकों का यह समूह देश के 22 क्षेत्रों राज्यों और केंद्र शासित प्रदेशों का प्रतिनिधित्व करेगा.

इस समूह में इंजीनियरिंग, विज्ञान, वाणिज्य और कला की विविध पृष्ठभूमि से छात्र-छात्रा शामिल है जिसमें विशेष रूप से 40 प्रतिशत महिला छात्रों के साथ संतुलित लैंगिक समानता है. उद्घाटन भाषण में भारतीय वन प्रबंध संस्थान के निदेशक डॉ. के. रविचंद्रन ने कहा, अगले दो वर्षों में,

जब आप स्नातक होंगे, तो सबसे अधिक मांग वाले पेशवरों में से एक होंगे. डॉ. रविचंद्रन ने कहा, दो वर्षों के बाद आप गहरी समझ, क्षमताओं और रचनात्मक पेशेवर के रूप में उभरेंगे. वन प्रबंधन में रोजगार के पर्याप्त अवसर हैं.

इस द्वि-साप्ताहिक कार्यक्रम में, पर्यावरण, जलवायु परिवर्तन, स्थिरता, विकास, कॉर्पोरेट, व्यवसाय, बैंकिंग और गैर-बैंकिंग वित्तीय और परामर्श क्षेत्रों के विद्वान नए छात्रों के साथ बातचीत करेंगे. जिससे छात्रों को क्षेत्रों के बारे में जानने और उन्हें उभरते पेशेवर अवसरों के लिए उन्मुख करने और अगले दो वर्षों के लिए भारतीय वन प्रबंध संस्थान में उनकी शैक्षणिक खोज में मदद करने का अवसर प्रदान करेगा.

Hon'ble Bhupender Yadav, Union Minister of Environment, Forest and Climate Change with Director IIFM Dr. K. Ravichandran

IIFM में फर्स्ट ईयर स्टूडेंट्स का ओरिएंटेशन प्रोग्राम आज से

सिटी रिपोर्टर। भारतीय वन प्रबंध संस्थान (आईआईएफएम) नए शैक्षणिक सत्र 2024-25 के लिए अपने प्रमुख एमबीए कार्यक्रम- वानिकी प्रबंधन और सतत पोषणीयता प्रबंधन में 200 नए स्टूडेंट्स को शामिल करने जा रहा है। ग्रीन मैनेजर्स का समूह देश के 22 क्षेत्रों का प्रतिनिधित्व करेगा, जिनका ओरिएंटेशन प्रोग्राम मंगलवार सुबह 10 बजे से आयोजित किया जाएगा। इस ग्रुप में इंजीनियरिंग, विज्ञान, वाणिज्य और कला की विविध पृष्ठभूमि से स्टूडेंट्स शामिल हैं। इस दो सप्ताह के कार्यक्रम में पर्यावरण, जलवायु परिवर्तन, स्थिरता, विकास, कार्पोरेट, व्यवसाय, बैंकिंग और गैर-बैंकिंग वित्तीय और परामर्श क्षेत्रों के विद्वान नए छात्रों के साथ बातचीत करेंगे। साथ ही, फ्यूचर ग्रीन मैनेजर्स को पंचमढी संरक्षित जैव मंडल और भीमबैठका के क्षेत्र दौरों के माध्यम से मप्र की समृद्ध जैव विविधता और प्राकृतिक विरासत से अवगत कराया जाएगा।

Sandeep Mall

@SandeepMall

On the 100th day of her demise we open the Jana Devi Memorial Scholarship. More details here sandeepmall.com/givingback/ We will start the process of connecting with the Deans of these colleges and all schools of Rajasthan but in case you are pass out from these institutes help me connect with the Deans. Do share on your timeline and your contacts. @SangeetKothari

जाना देवी मल्ल MEMORIAL SCHOLARSHIP

Eligibility:

Students from the following institutes can apply for the Scholarship:

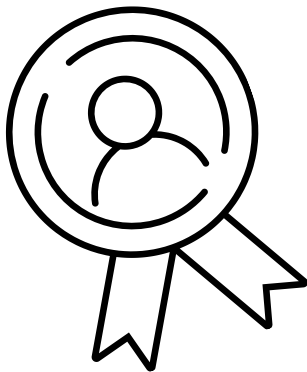

1. Indian Institute of Technology
2. Indian Institute of Management
3. Birla Institute of Technology, Pilani
4. XLRI, Jamshedpur
5. National Institute of Design, Ahmedabad
6. Mudra Institute of Communication, Ahmedabad
7. Indian Institute of Forest management, Bhopal
8. National Law school of India University, Bangalore
9. National Law university, Delhi
10. Institute of Rural management, Anand

Mr. Sandeep Mall, an Entrepreneur and Author based in Gurugram is providing scholarship support to students of premier institutes of India in which IIFM Bhopal is one such institute. Hence IIFM Bhopal students can apply for this scholarship in memory of grandmother of Mr. Sandeep Mall.

ALUM OF THE MONTH

ALUM OF THE MONTH

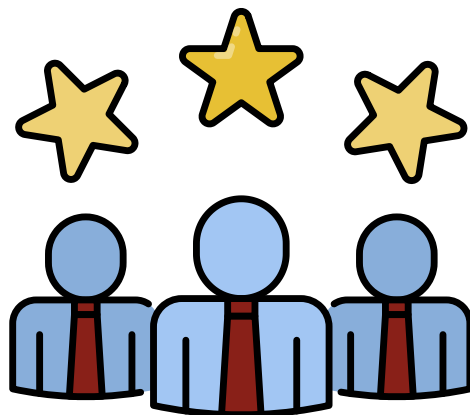

JUNE 2024

This certificate recognises the contribution of
DHARMENDRA DAUKIA (PFM 89-91)

If there is a person who has made the most out of the ever growing and vibrant alumni network, it is Dharmendra Kumar Daukia, popularly know as DK. Both personally and professionally he has been an active participant in alumni activities. He not only wet his toes on the shores of the AA sea but decided to surf the waves. Furthermore, being an enthusiastic member of the AA has rekindled his connections with the alma mater. We have seen him not only climbing the Hill in Bhopal to motivate the students but he even scaled the Himalayas to be at the new IIFM campus at Kurseong. DK is the ideal IIFM alum, proud of his Institute and ever helpful and charitable towards other alums and the AA. We are delighted to declare DK as the alum of the month.

KNOWLEDGE CORNER

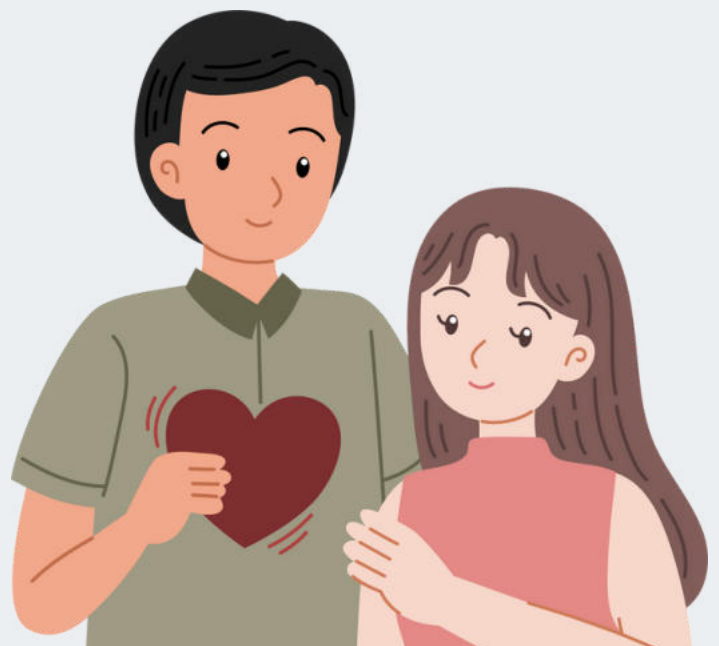

Guardian of the Himalayas: The Legacy of Sundar Lal Bahuguna

Sundar Lal Bahuguna, a towering figure in India's environmental movement, is best known for his pioneering role in the 1970s Chipko Movement. This grassroots initiative aimed to protect Himalayan forests by having villagers hug trees to prevent logging. Bahuguna's dedication to conservation was rooted in his deep connection with nature and Gandhian principles of non-violence and sustainability.

Born in 1927 in Tehri, Uttarakhand, Sundar Lal Bahuguna was an ardent advocate for the preservation of the Himalayas. His efforts extended beyond the Chipko Movement to campaign tirelessly against large dams, notably the Tehri Dam. His lifelong commitment to environmental activism earned him the Padma Vibhushan in 2009. Bahuguna's work left an indelible mark on India's environmental landscape, inspiring generations to embrace ecological conservation. He passed away in May 2021, but his legacy endures, reminding us of the vital importance of living in harmony with nature.

‘जीवनसाथी की नज़रों से’ SPOUSE SPEAKS

Journey of IIFM with Nirbhay..

Being married to Nirbhay is like having a permanent plus-one to a college reunion that never ends! His love for his alma mater, IIFM, is infectious. He constantly reminisces about those carefree days, and honestly, it makes me wish I could have been there too. Nirbhay's stories paint a vivid picture of late-night study sessions fueled by canteen Maggi, birthday bumps that tested the limits of friendship and internships that offered a thrilling mix of real-world experience and apparently, green, handkerchief-filtered water! But beyond the academics and adventures, it's the friendships Nirbhay cherishes most. His tales of exploring the jungle trail, forging a lifelong bond with nature and their hilarious "first trip" story are constant reminders of the importance of shared experiences.

Then there are the legendary haunts: Hotel Ranjit, Hakims, Rice bowls etc. that sound suspiciously like late-night hunger pangs – these places hold a special place in his heart, representing more than just food.

College wasn't all textbooks and treks, though. Nirbhay's competitive spirit comes alive when he talks about his gully cricket team, the "Bhaiya ji k Sixers." Apparently, their prowess has transcended the boundaries of IIFM and found a new home in our very own residential society!

Seeing his eyes light up as he recounts these stories makes me realize how much IIFM shaped him. It's more than just a college; it's a wellspring of cherished memories, lifelong friendships, and experiences that continue to enrich his life. His enthusiasm is so contagious that sometimes, I feel like I'm right there with him, cheering on the "Bhaiya ji k Sixers" or sharing a questionable bowl of rice at some nameless eatery.

-Diksha Bhatnagar better half of Nirbhay Bhatnagar(PFM 2009-11)

APPEAL

Emergency Support Fund (ESF)

The IIFM Alumni Association (AA) is proposing the ESF to help IIFM Alumni in the times of distress.

Scope of Financial Support:

Financial help will be extended to the AA members in the following situation:

- AA member facing prolonged/ critical illness, rendering them unable to work
- AA member who has/had a major accident
- AA member who is facing permanent disability.

Support Us

Dear Alumni, thank you for all your open hearted engagement and support to various calls for financial contributions that we made. This has gone a long way in building up the AA and we find ourselves in a reasonable position. However, as you are well aware, finances are required constantly. We request you to contribute generously to the AA. The bank details and QR code is given here.
