Startup India

Aavishkaar Group has signed an MoU with Department for Promotion of Industry and Internal Trade to support startups through a virtual incubation program offering localized, multilingual content for non-English-speaking founders.

Former SEBI Chairman Upendra Kumar Sinha highlighted the focus on funding, mentorship, network access, and tailored support for entrepreneurs from Tier 2, Tier 3 cities, and underserved regions.

India's wind sector must innovate and secure, not just scale

India, after all, aims to achieve 500 GW of non-fossil-based electric installed capacity by 2030, including an ambitious target of over 100 GW from wind

As India pushes towards achieving 500 GW of non-fossil-based electric installed capacity by 2030, including an ambitious target of over 100 GW from wind, the true challenge goes beyond just scaling up.

Sreyamsa Bairiganjan (Chief of Programmes Shakti Sustainable Energy Foundation) (PFM 2006-08) at a launch event with Union Minister G Kishan Reddy

Union Minister Shri G. Kishan Reddy officially launched the NCMM Outreach Forum at the Stein Auditorium, India Habitat Centre, New Delhi. In his keynote address, he emphasized the importance of critical minerals for clean energy, semiconductors, defence, and digital technologies. He highlighted that the launch of the Outreach Forum under NCMM marks a new era of convergence among stakeholders—Government, Industry, Academia, and Startups—for enabling a future-ready, high-value mineral economy. He called for faster decision-making, collaborative research, and de-risked investments to accelerate India's transition into a global hub for critical mineral processing and recycling

📣 CEEW and [NatureDots](#) Partner to Strengthen Water Resources Management with AI and Digital Twin Tech

CEEW and NatureDots have entered into a partnership to advance sustainable water resource management to enable seamless digital transformation by bringing together CEEW's rich expertise in policy research and on-ground action with NatureDots' AquaNurch Digital Twin technology suite for multi-geography and multi-use case. As part of this collaboration, we aim to:

- 👉 Deploy next generation AI tools that generate actionable intelligence to address water quantity and quality challenges,
- 👉 Bridge data gaps, inform evidence-based policymaking, and enhance climate resilience to extreme water-related events across urban and peri-urban areas, and
- 👉 Combine science, technology, and policy to foster innovations for a climate-resilient water-secure future.

It was a pleasure to lead an IFGE delegation to meet Shri Tarun Kapoor, Advisor to the Hon'ble Prime Minister, to discuss the progress, challenges, and opportunities in the field of green energy – including sugar and grain ethanol, CBG, SAF, biodiesel, and biomass.

We had an engaging and insightful discussion with Shri Tarun Kapoor, who gave us a patient hearing and offered several valuable solutions. We had a detailed discussion sector wise and also proposed :

1. Launching flex-fuel vehicles as a showcase project in DELHI – a model that could be replicated across India.
2. Set up a Green Energy Fund to encourage and support startups in the green energy sector.

Delegation was joined by: Prakash Naiknavare, Managing Director, National Sugar Federation SANJAY GANJOO , Director General, IFGE Ashish Kumar , Vice President IFGE, Managing Director, Verbio Subodh Kumar , Advisor, IFGE: CBG Producer Forum (CBGPF) Dr. Tushar Patil

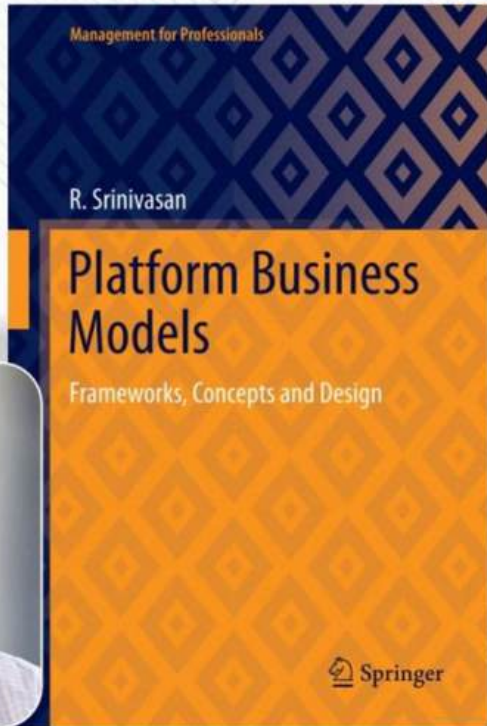

Others who joined on zoom: Vijay Nirani , C.K. Jain, President of Grain Ethanol Manufacturers Association , Ravi Gupta and other industry colleagues.

ALUMNI ASSOCIATION OF IIFM

INTERNATIONAL YOGA DAY

Meet Our Alumnus, Rahul Sharma, PFM 13

My journey with Yog began back in 2009, during my college years. At that time, Yoga seemed to be everywhere, public parks full of people practicing at dawn, street corners where small groups gathered, TV channels broadcasting early morning sessions. It was my father who introduced me to this world, teaching me a few basic asanas and poses. Back then, it was simply about following the physical movements: sitting still, holding a posture, trying to remain calm. Honestly, sitting quietly for long stretches felt like a challenge in itself. But somewhere along the way, those simple beginnings planted a seed.

As I moved into my time at IIFM, that seed quietly began to sprout. My hostel room in Vindhyaachal (and the entire campus, for that matter) offered an ideal setting for deeper practice. Around the same time, a new gym was set up at Nilgiri, and my routine found a natural rhythm: evening Yog sessions after classes, followed by resistance training at the gym, and finally, dinner at the mess. The serenity of the campus, especially during summer internships when most had left, provided the perfect ambience.

(To be continued in our Newsletter. Stay tuned!)

✦ Rooted in Strength, Reaching for Stillness ✦

In a world constantly in motion, Vrikshasana teaches me the art of stillness. To stand tall like a tree , grounded, focused, resilient. It builds strength in the body, and clarity in the mind. A daily reminder that balance is not something you find, but something you create.

INTERNATIONAL YOGA DAY

Meet Priya Upadhyay
(Wife of our alumnus Pramod Upadhyay, PFM 2010)

Here's What Priya Has to Say About the Power of Yoga

Yoga isn't just an exercise, it's my everyday anchor. Here's how it has transformed my life for the better:

- Emotional Balance – Helps me stay calm and centered, even on the busiest days. Meditation sharpens my focus and fuels creativity.
- Hormonal Harmony – Breathwork and movement naturally balance my mood and energy.
- A Self-Care Ritual – Yoga is my sacred pause, a moment to reflect, recharge, and reconnect.
- Holistic Health – Combines movement, breath, and stillness for complete well-being.
- Confidence from Within – Yoga empowers me with inner strength and self-assurance.

ALUM OF THE MONTH

ALUM OF THE MONTH

JULY 2025

This certificate recognises the contribution of
AKANKSHA TIWARI (PFM 09-11)

ALTHOUGH NOT DIRECTLY WORKING IN THE ENVIRONMENT SECTOR, AKANKSHA TIWARI HAS CONSISTENTLY APPLIED HER IIFM LEARNING TO CHAMPION SUSTAINABILITY WHEREVER SHE'S POSTED. FROM SETTING UP THE FIRST VETERINARY HOSPITAL IN AN ARMY CANTONMENT TO CREATIVELY BEAUTIFYING THE AREA WITH UPCYCLED WASTE MATERIALS, SHE BRINGS ENVIRONMENTAL CONSCIOUSNESS INTO UNEXPECTED CORNERS.

SHE'S ALSO KNOWN FOR HER WARM HOSPITALITY—WELCOMING INTERNS AND ALUMNI WITH OPEN ARMS WHEREVER SHE IS STATIONED. SO THE NEXT TIME YOU FIND YOURSELF IN AURANGABAD, BE SURE TO REACH OUT. YOU'RE IN FOR BOTH INSPIRATION AND GREAT COMPANY!

KNOWLEDGE CORNER

Wangari Maathai: The Mother of Trees and Environmental Justice

Wangari Maathai was a pioneering Kenyan environmentalist, political activist, and the first African woman to win the Nobel Peace Prize in 2004. She is best known for founding the Green Belt Movement, an environmental organization that empowered women to plant trees to combat deforestation, restore degraded landscapes, and promote sustainable livelihoods. Through this initiative, over 50 million trees were planted across Kenya, significantly contributing to environmental restoration and climate resilience.

Maathai believed deeply in the connection between environmental conservation, social justice, and democracy. Her work championed women's rights, community empowerment, and ecological sustainability at a time when these issues were not widely recognized in African policy circles. Despite facing political opposition and imprisonment, she remained committed to her cause, inspiring a global movement for environmental stewardship.

Her legacy lives on as a symbol of courage, perseverance, and the power of grassroots activism in transforming both communities and ecosystems.
